# Copy Stands & Lighting Equipment for Image Capturing and Reproduction

Facts · Specs · Options

MADE IN  
GERMANY

Many two-dimensional originals and small objects require a special set-up for capturing the image: The camera should look vertically down at the subject. In many cases an accurate, repeatable alignment is indispensable. This can be achieved by using special camera stands – known as copy stands in the “world of photography”.

Stand and lighting equipment together with a suitable camera represent a complete solution for these image capturing jobs. The Kaiser range of camera stands and lighting equipment is organized in “system families”, within which the individual components are coordinated to harmonize with each other.

When choosing a “suitable” lighting system, you have to take a variety of issues into consideration: dimensions, condition and reflective properties of the subject to be captures as well as the type of camera used and the exposure parameters.

Accessories specially designed for image capturing tasks is often indispensable for efficient working or at least helpful.

In addition various camera accessory gear and general photographic tools can be used.

## Contents

### R1 System

PAGE 3

High flexibility and extraordinary versatility are the outstanding features of the R1 system. A vast range of components and accessories lets you even cope with special tasks.

### “eVision” Copylizer

PAGE 9

This universal “image capturing tool” comprises a complete reflected/transmitted-light/stand combination.

### RD System

PAGE 13

This professional system offers high stability at still compact dimensions and is also available with a motorized height adjustment.

### rePRO System

PAGE 15

This system is uncompromisingly designed for heavy loads and outstanding stability and meets all professional requirements in image capturing. It provides the necessary stability especially for line sensor scanning cameras, micro scanning systems, optical bench view cameras and TV cameras.

### R2 System

PAGE 19

A “amateur” system, but also suitable for professional applications using low weight cameras, and that is also available as a mobile version.

### reprokid

PAGE 21

This unit is ideal for all applications where little space and light weight is the issue. Low cost is a welcomed side effect.

# R1 System

The Universal, Sophisticated,  
Flexible, Versatile, Multi-functional,  
Adaptable, Modular System

- For professional users and dedicated photographers.
- High stability, angular precision and quality workmanship
- Ideal for use with camera systems up to 4 kg/8.8 lbs. total weight.
- Vast range of components and accessories.
- Units can be adapted to individual requirements.
- Base boards of various sizes, columns of different height, camera arms with a variety of adjustment options.
- Lighting units with various light sources and reflectors, working at different power levels, with various mounting and adjustment options.

**This system – optimized for adaptability – is completely modularized and therefore allows also customized configurations.**

- B $\frac{1}{4}$  | For camera with greater distance between tripod mount and optical axis
- Camera positioning device

### 2CC

205540

- B $\frac{1}{4}$  | Two camera platforms can be shifted horizontally to left or right
- For carrying two cameras simultaneously, e.g. for comparison shots

### Focusing Stage

205531

- B $\frac{1}{4}$  B $\frac{3}{8}$  | Fine drive with spindle
- Rapid adjustment with single lever lock
- Setting range 120 mm / 4.7 in.
- Locking screw

## Wall Mount

For R1 system columns. Top section adjustable for vertical position. Lower part with base and spirit level. Distance between wall and holding arm front (no camera arm attached): approx. 25 cm / 9.8 in.

204412

205508

## Table Frame

For all stands/base boards of the R1 and RD system. Height-adjustable feet. Slide-in compartment for control box for lighting units. WxHxD: 58 x 51 x 60 cm 22.8 x 20.1 x 23.6 in.

205549

## Extraneous Light Protector

For R1 and Copylizer systems. Light-tight tent made of black, teflon-coated fabric. Front zipper. Holding support 85 x 80 cm / 33.5 x 31.5 in. fits on 1 m / 39.4 in. and 1.2 m / 47.2 in. columns.

204427

## Base

Can be mounted to table boards or work plates to attach R1 system column.

## Extension Arm

Extends the holding arm of the column by 8 cm / 3.1 in.

- Edge dimension: 16 mm / 0.6 in.
- Complete set of 2 for both sides.

- For use with 205560. 2 pieces. E27 socket.
- Tiltable and pivotable.
- Lamp equipment 2 x 250 W max.
- Lamps not included. *For suitable reflector lamps see page 27.*
- 2 x 2 m / 6.5 ft. cord with cord switch.

- For fastening flashguns or lights with standard accessory foot or 1/4" mounting thread on lamp arms of 16 mm/0.6 in. edge dimensions.
- 1 piece.

# “eVision” Coplizers

The Complete Reflected/Transmitted  
Light/Stand Combination

- For photographic capturing of subjects of any kind, including three-dimensional subjects.
- For electronic documentation using digital or analog camera systems.
- For capturing documents, logos, symbols, photos and drawings for further processing in DTP systems or for further use in video conferences or networks.
- For reproducing and documenting X-ray films, large format slides, silhouetted subjects and transparent objects.
- As a video presenter in schools and universities, at training courses and meetings, in advertising, industry, medical imaging, for use by military and public authorities.
- For integration into evaluation systems for quality testing and monitoring in industry labs.

Everywhere in industry and administration, in medicine, science and research, in the entire area of communication and information technologies, where photos and other originals have to be copied, catalogued, archived or transformed, there is one thing you need apart from the camera system of your own choice: a

Kaiser Copylizer. It provides reliable camera mounting and suitable lighting when reproducing and documenting in conventional photography as well as for digital electronic image capturing.

The stands can be used either with or without the respective side lighting units, as there are mounting provisions on all stands.

For 205602 and 205603 RSD copy stands.  
Height adjustable feet. Dimensions (WxHxD): 58 x 51 x 60 cm / 22.8 x 20.1 x 23.6 in.

**Copy Table**  
Wheeled base stand for mounting an RD column. Dimensions (WxHxD): 92 x 49 x 68 cm / 36.2 x 19.3 x 26.8 in.

# rePRO

The System for  
Highest  
Professional  
Requirements

When you need a maximum in stability, solidity and load capacity, the Kaiser rePRO system is the right choice.

This system is not only at home in photo and video studios, but also in technology, forensics and science, education, research and media production. Because of its extremely high level of stability the rePRO system is especially suitable to capture large format reflective or transparent originals.

This modular-designed stand is available in several versions: with a table with fixed working height, with a motorized height-adjustable table and without a table.

According to the job, the table with fixed working height can be equipped with a large base plate or with a trans-illuminator for translucent originals.

Height adjustment of camera level is motorized and works individually along the entire column via remote control.

The camera platform can travel up and down at two speeds, regardless of the supported load.

The version with height-adjustable table has a motorized table and a motorized camera carrier that can be moved along the complete height of the column. This offers enormous flexibility with respect to shooting distance and possible working positions. The version without a table provides for a different sort of flexibility, because it can be combined with various existing working planes.

For precise positioning of the optical axis of the camera, the camera carrier can be shifted horizontally and, in addition, can be tilted by +/- 90 degrees.

The column, made of a multi-section special extrusion, is mounted to a firmly attached die-cast base and is extremely sturdy and vibration-resistant.

These professional work stations—equipped with a suitable camera system of your choice—offer optimum conditions for sophisticated image capturing tasks.

Table Frame	Base Board	Lighting Unit
<b>205615</b>	<b>205616</b>	<b>RB 5056 HF (205656)</b>

- Height without base (WxHxD): 88 x 66 x 78 cm / 34.6 x 26 x 30.7 in.
- Required floor space (WxD): 88 x 104 cm / 34.6 x 41 in.
- Steel tube construction, demountable
- Base for column made from die-cast aluminum, with integrated spirit level
- Feet can be height-adjusted individually
- Stacking tray: 79.5 x 49 cm / 31.3 x 19.3 in.

- To be inserted in the table frame 205615
- Dimensions (WxD): 80 x 60 cm / 31.5 x 23.6 in.
- Thickness: 38 mm / 1.5 in.
- Specification: High-compressed wooden material, all-side plastic-laminated, printed grid and cm/inch scales Includes slide-in carrier for control box of optional lighting unit

- Light banks with 64 x 21 cm / 25.2 x 8.3 in. light emitting area
- High-gloss inside reflector
- Lamps: each bank with 2 x 55 W daylight fluorescent lamps
- Color temperature 5400 K, CRI = 90-100
- High-frequency operation, 40 kHz
- Separate control box
- Lights can be tilted and shifted
- Horizontal lamp arms can be adjusted continuously in height
- Vertical lamp arms with height markings, tiltable with detents
- 25 mm / 1 in. edge dimension
- Mount with strong die-cast clamp bases, clamp width: 15 to 55 mm / 0.6 to 2.1 in.
- Replacement lamp: 203454 (1 piece)

**RB 5056 HF (205657)**

Same as 205656, but additionally continuously dimmable

# R2 System

Compact, Flexible, Stable

- Copy stands and lighting units of the R2 family are lighter versions of the R1 system. Designed for light-weight cameras, their dimensions and stability is ideal for copy work.
- These stands are not only for the majority of digital cameras, compacts and smaller SLRs, but are also suitable for industrial CCD and CMOS cameras.
- There is also a range of suitable lighting units: from recent LED light to high-frequency fluorescents to basic tungsten lamp lighting.

# Accessories

Visit our website at  
[www.kaiserfotous.com](http://www.kaiserfotous.com)  
for more accessories.

**KR90 LED Ring Light**

**203250**

- Professional ring light with 30 three-chip high-performance LEDs, approx. 5500 K.
- Wide angle of radiation (110°), minimum working distance is only 3 cm (1.2 in.).
- Illuminance at 30 cm (11.8 in.) approx. 1650 lux.
- Lithium ion battery with deep discharge protection, operating time at full illumination approx. 2 hours.
- No illuminance drop-off due to battery consumption.
- Highly durable duralumin housing with 77 mm connecting thread and 1/4" tripod thread.
- Includes adapter rings from 52 to 72 mm, quick charger and car charger cable.

**Slide Duplicator**

**206506**

- For photographing slides and negatives with cameras with front lens thread.
- Attaches to the filter thread of the lens.
- 52 mm connecting thread. 58 mm adapter ring included.
- Adapter rings for other filter thread sizes available as accessories.
- Detachable achromatic 10 dioptre macro lens, can also be used separately.
- 80-120 mm lens (based on full-frame sensor) is required to achieve full size copies, larger frames require higher focal length.
- Includes holder for two 35 mm slides up to a mount thickness of 3 mm.
- Film strip carrier for six 35 mm negatives available as an accessory (6507).

**Spirit Levels**

**206387**

Duplex Spirit Level. With twin levels and mounting feet for landscape and portrait position. Transparent housing. Attaches to the camera's accessory shoe.

**206385**

With twin levels for landscape and portrait position. With mounting shoe and 1/4" tripod bush.

**206386**

Circular bubble, self-adhesive. For permanent attachment to cameras, tripods etc. Can also be screwed on.

206385

206386
