

Plan APOCHROMATIC Objective Lenses

MOTIC announces the launch of a new SET of highly corrected Plan APOCHROMATIC Lenses. Strong in numerical aperture and with top-Level optical corrections, these lenses are offering a unique performance to a very competitive price level.

Motic Plan APOCHROMAT lenses are available in all magnifications and providing the user with powerful performance through the whole line of Objective lens.

Corrected for five Wavelength in Color and in four for spherical aberration, Motic Plan Apo provides excellent flat and contrast rich images.

Corrected wavelength are dark blue, blue, green, red and dark red, 4X, 10X, 20X, 40X and 100X magnifications are available.

Code	Description	N.A.	W.D.
1101001704721	Plan APOCHROMAT 4X	0.15	20
1101001704731	Plan APOCHROMAT 10X	0.35	4.2
1101001704741	Plan APOCHROMAT 20X	0.65	0.7
1101001704751	Plan APOCHROMAT 40X	0.95	0.18
1101001704821	Plan APOCHROMAT 100X	1.3oil	0.25

Motic Plan Apochromatic Lenses are targeting advanced BioMedical Market segment such as Cell research or Pathology Lab. It replaces predecessors such as HNA Plan Lenses.
