

The **Makro Stand** digital gross photographic station provides simplified viewing and documenting of grossing samples. The color HD camera with super fast auto-focus and extreme depth of focus (4" to infinity) virtually eliminates the need to adjust focus or camera height on the stand. Visualize all the details with the 1X-14X continuous zoom. The sample is always in focus. Use with or without a PC. Simply use the included mouse to control the camera through the built-in software. Vibrant, true-color images are displayed on your supplied HD monitor for easy, ergonomic viewing. Smart card or computer capture.
